

750 Years of the Augustinian Monastery

Anniversary Year 2027

Luther's Augustinian Monastery in Erfurt

The Augustinian Monastery is a rare example of medieval monastic architecture and a site of outstanding historical significance. The famous reformer **Martin Luther** lived for several years at the monastery of the Augustinian Hermits. After being ordained as a priest at the Cathedral of St. Mary he served as a pastor at the monastery.

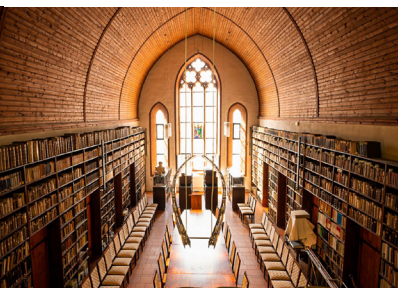

Today, the monastery is not only an important site associated with Luther, but also a vibrant hub for social gatherings, conferences, spirituality and church life. This anniversary year invites visitors to discover 750 years of eventful history, experience the present, and shape the future.
